

Download New Materials

1. Open the Terminal lor PC equivalent (git bash)
2. `cd` to your local 'R for Bench Biologists' git folder.
3. Commit your changes from last week.
 - `git add -A`
 - `git commit -m "your message here" eg. 'end of week 3'`
4. Getnew files onto your computer
 - `git pull --rebase origin master`
5. You should now see the newest materials for the wrokshop now in your folder.

Note: this is how you will regularly get new course materials, so make sure it works and you are comfortable with it
